

# Matrimony Website

**AK MATRIMONY**

**NAME : MOHAMED AFROSEKHAN.J**

## **ABSTRACT**

**AK MATRIMONY**, one of India's best known brands and the world's largest matrimonial service was founded with a simple objective - *to help people find happiness*. The company pioneered online matrimonials in 1996 and continues to lead the exciting matrimony category after more than a decade. By redefining the way people meet for marriage, Shaadi.com has created a world-renowned service that has touched over 35 million people

## **PROJECT DESCRIPTION**

**AK MATRIMONY**, one of India's best known brands and the world's largest matrimonial service was founded with a simple objective - *to help people find happiness*. The company pioneered online matrimonials in 1996 and continues to lead the exciting matrimony category after more than a decade. By redefining the way people meet for marriage, Shaadi.com has created a world-renowned service that has touched over 35 million people

### **MODULES:**

- ★ Home
- ★ Login
- ★ Register

### **MODULE WISE DESCRIPTION**

**HOME PAGE MODULE** : Used for managing the all details

**LOGIN PAGE MODULE** : It is used for managing the login details

**REGISTER PAGE MODULE** :Used for managing the register details

## SOFTWARES

### FRONT END: HTML,CSS,BOOTSRAP & JQUERY

#### INTRODUCTION

##### **HTML:**

HTML stands for HyperText Markup Language. It is used to design web pages using a markup language. HTML was created by Tim Berners-Lee in 1991. HTML is the combination of Hypertext and Markup language. Hypertext defines the link between web pages.

##### **CSS:**

Cascading Style Sheets, fondly referred to as CSS, is a simply designed language intended to simplify the process of making web pages presentable. CSS allows you to apply styles to web pages. More importantly, CSS enables you to do this independent of the HTML that makes up each web page. It describes how a webpage should look: it prescribes colors, fonts, spacing, and much more. In short, you can make your website look however you want. CSS lets developers and designers define how it behaves, including how elements are positioned in the browser.

## **BOOTSRAP:**

Bootstrap is developed mobile first, a strategy in which we optimize code for mobile devices first and then scale up components as necessary using CSS media queries.

## **JQUERY:**

jQuery is an open source JavaScript library that simplifies the interactions between an HTML/CSS document, or more precisely the Document Object Model (DOM), and JavaScript. Elaborating the terms, jQuery simplifies HTML document traversing and manipulation, browser event handling, DOM animations, Ajax interactions, and cross-browser JavaScript development.

## **PLATFORM INDEPENDENT**

Html & Css is platform independent as it can run without the help of any platforms or software. Html & Css codes are usually used in making website, which is now the best source for information and internet marketing.

## **FEATURES OF HTML PROGRAMMING LANGUAGE**

It is a very easy and simple language. It can be easily understood and modified.

- It is very easy to make an effective presentation with HTML because it has a lot of formatting tags.
- It is a markup language, so it provides a flexible way to design web pages along with the text.
- It is platform-independent because it can be displayed on any platform like Windows, Linux, and Macintosh, etc.
- It facilitates the programmer to add Graphics, Videos, and Sound to the web pages which makes it more attractive and interactive.
- HTML is a case-insensitive language, which means we can use tags either in lower-case or upper-case.

## **SOFTWARE REQUIREMENTS**

### **A.SYSTEM REQUIREMENTS**

- **Operating System : windows**
- **Techonologies Used :**
  - Front End : HTML, CSS, BOOTSRAP & JQYERY

### **Software Requirements:**

- Html
- Browser
- Windows

## B.SOURCE CODE

## DESIGN AND DEVELOPMENT

### OUTPUT SNAPSHTOS:

#### HOME:

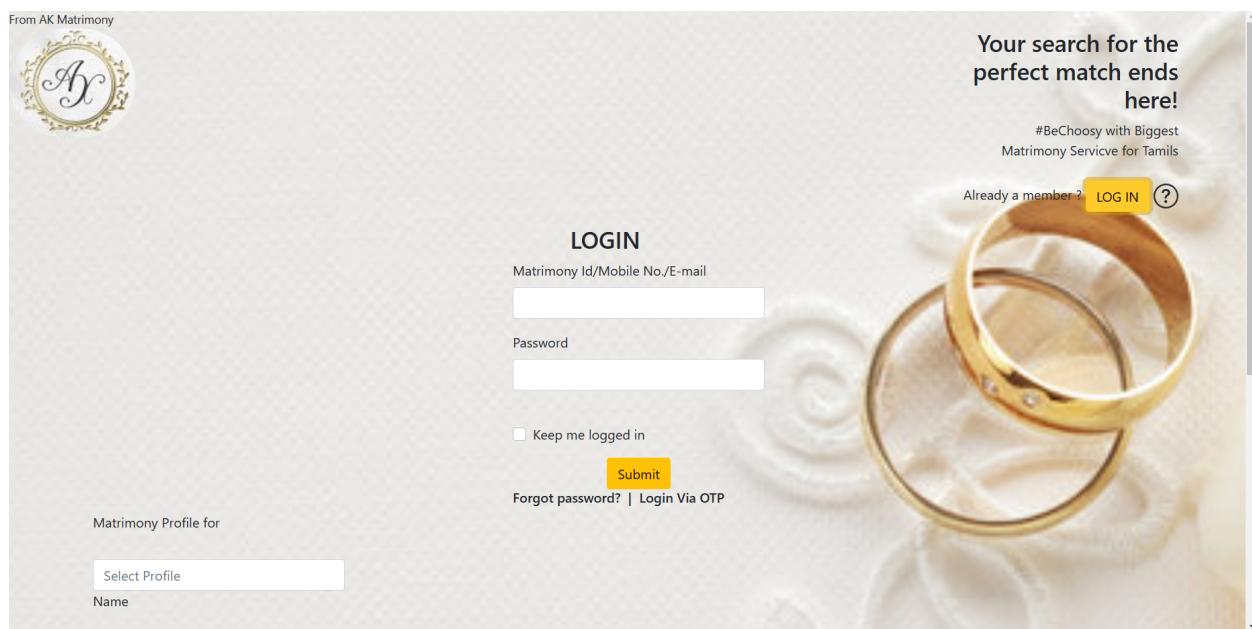

From AK Matrimony

The screenshot shows the homepage of AK Matrimony. At the top right, there's a banner with the text "Your search for the perfect match ends here!" and "#BeChoosy with Biggest Matrimony Service for Tamils". Below the banner, there's a "LOG IN" button and a question mark icon. The main background features a close-up of two gold wedding rings on a white, textured surface. On the left side, there's a sidebar with fields for "Select Profile", "Name", "Enter Name", "Mobile Number", and "Enter Number", followed by a large yellow "REGISTER FREE" button. At the bottom left, there's a note about agreeing to T&C and Privacy Policy, and a black bar with the text "Contact genuine profiles with 100% verified mobile numbers".

#### LOGIN:

From AK Matrimony

The screenshot shows the login page of AK Matrimony. It has a similar layout to the home page, featuring the same banner at the top right. The main area is titled "LOGIN" and contains fields for "Matrimony Id/Mobile No./E-mail" and "Password", both with placeholder text. Below these fields is a checkbox for "Keep me logged in" and a yellow "Submit" button. At the bottom, there are links for "Forgot password?" and "Login Via OTP". The sidebar on the left includes fields for "Select Profile" and "Name". The background features the same two gold rings on a white, textured surface.
